The background of the page is a light gray with a subtle texture. Overlaid on this are several sets of concentric purple circles. A vertical band of a darker purple color runs through the center of the page. The circles are arranged in a way that they overlap the vertical band and each other, creating a complex geometric pattern.

Ref.5536

The background of the entire page is a complex, abstract geometric pattern. It consists of numerous thin, white, concentric circles that are arranged in a grid-like fashion, overlapping each other. The circles are of varying diameters and are positioned such that they create a series of interlocking, elongated, and somewhat irregular shapes. The overall effect is a dense, textured, and visually intricate design that covers the entire surface of the page. The pattern is rendered in a light gray or off-white color against a dark gray background.

!! Actual colours might be considerably different to the ones herein shown. Please, take into consideration that the images on our website are photographs of the finished products and are not the original digital designs.

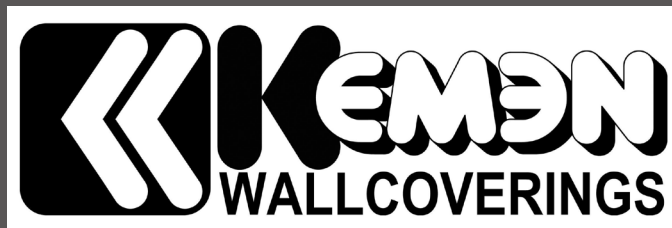

Please bear in mind, that the quantity, quality and the degree of incidence of daylight and/or artificial light towards the products might show desired reflections/gleams, that are not possible to fully show in the digital images of the finished goods. This particular fact is more significant in all articles including metallic (gold / silver) colours.

Most of the products have embossed surfaces, in other words, papers are not smooth. In order to fully appreciate these shape/emboss effects, please visit your nearest retail/distribution store where you will be able to appreciate all our collections.

!! Los colores reales de los papeles pintados pueden ser sustancialmente diferentes a los aquí mostrados. Por favor, tenga en consideración que se trata de imágenes digitales del diseño original y no imágenes del producto original. Puede haber cambios de texturas y/o colores.

Por favor, tenga en cuenta que la cantidad de luz diurna y/o artificial, así como el grado de incidencia de ésta sobre el producto puede mostrar diferentes brillos (deseados) que no son posibles de captar en la imagen de la web. En particular, este hecho se agrava en todos aquellos productos con plata, oro y mica.

Los productos tienen, en la gran mayoría, relieve en superficie, es decir, no se trata de papel liso. Para poder apreciar dichos relieves/formas por favor acuda a su punto de venta más cercano donde podrá apreciar en detalle todas nuestras colecciones.
